SUMMARY

Skilled in AWS Cloud, DevOps, cybersecurity, and Power BI with hands-on experience in cloud technologies, automation tools, and data visualization. Experienced in internships focused on data analytics, cloud AI, and web development projects. Strong problem-solving and technical implementation abilities with a passion for building scalable, secure, and efficient solutions. Eager to contribute technical expertise and adaptability to a growth-oriented organization.

EDUCATION

S.A Engineering College, MCA | CGPA - 7.60

07/2024 – 04/2026

Vels Institute of Science, Technology & Advanced Studies, BCA (Cloud Technology and Information Security)
| CGPA – 7.53

07/2019 - 05/2022

TECHNICAL SKILLS

Programming Languages: Python, HTML, CSS, MongoDB | **AWS Cloud Tools:** EC2, S3, IAM, DynamoDB, Lambda, VPC, CloudFront, Auto Scaling | **DevOps Tools:** Git, Jenkins, Docker, Kubernetes, Ansible, Prometheus, Grafana | **Cyber Security:** Kali Linux, Nmap, Metasploit, Burp Suite, Wireshark

INTERNSHIP EXPERIENCE

- **Ministry of Micro, Small and Medium Enterprises - DATA AUTOMATION DATA STATISTICS AND ANALYTICS (PYTHON)** (01/2025 – 03/2025)
- **CODSOFT - Web Development** (05/2025 – 06/2025)
- **CODTECHITSOLUTION PVT.LTD – Front End Development** (06/2025 – 07/2025)
- **NASSCOM - Google Cloud Generative AI** (07/2025 – 09/2025)

COURSE CERTIFICATE

**AWS & DEVOPS
YUM TECHNOLOGY**

12/2023 – 02/2024

ACADEMIC PROJECTS

OTT VIDEO STREAMING SERVICE TO IMPROVE THE ADAPTIVITIES OF THE TELEVISION SYSTEM

- Spearheaded the integration of OTT cloud technology for a leading online video platform, leveraging CDNs to increase content delivery efficiency by 40% and reduce server load by 50%.

CREATION OF DR.A.P.J. ABDUL KALAM WEB PAGE USING HTML & CSS

- Developed and executed a comprehensive tribute webpage for A.P.J. Abdul Kalam Sir using HTML and CSS, highlighting his life achievements and impactful contributions in technology and education.

SMART FIRE DETECTION AND ALERTING SYSTEM USING MQ-2 GAS SENSOR WITH IOT INTEGRATION

- Developed a Smart Fire Detection System using the MQ-2 gas sensor and IoT technology to monitor smoke and gas levels. Implemented automatic email alerts and buzzer notifications for early fire detection and safety.

FIFA WORLD CUP: DATA ANALYTICS AND INTERACTIVE DASHBOARD USING POWER BI

- Built an interactive FIFA World Cup analytics dashboard using Microsoft Power BI to visualize historical match data, team performance, goals, host countries, and tournament statistics through dynamic charts and KPIs.

PERSONAL PROJECTS

OTT VIDEO STREAMING SERVICE TO IMPROVE THE ADAPTIVITIES OF THE TELEVISION SYSTEM

- The Weather Forecast Web App is a responsive application built using HTML, CSS, and Flask that provides real-time weather updates for different cities using a weather API.

AREA OF INTEREST

Cloud and DevOps | Cyber Security Analyst | Python Web Developer | Software Testing | Power BI Developer | Data Analyst.

CERTIFICATES

CompTIA Cloud+ Advanced (Scored- 90 marks out of 100) - Alison | **AWS Cloud Practitioner** - AWS training and certification | **CompTIA Security+(SY0-601)** - CYBRARY | **Penetration Testing & Ethical Hacking** - CYBRARY | **Agile Project Management** - Coursera | **AWS Cloud front Serve content from multiple S3** - AWS training and certification | **Check point Jump Start: Cloud Security** - CYBRARY

ACHIEVEMENTS

Top 50 Finalist – National Level Hackathon – KPR Institute of Engineering and Technology | Top 10 Finalist – Web Scraping Hackathon
